NO. 284—SIXTY-FOURTH YEAR

VICTORIA, BRITISH COLUMBIA, THURSDAY, NOVEMBER 9, 1922

TWENTY PAGES

TURKS MAY FACE GREAT DISASTER

Flat Warning to Nationalists on Threatened Opposition Given by British Secretary for Foreign Affairs

PURCHASE NO PEACE AT COST OF HUMILIATION

Renewal of Friendship Between France and England More Important Than Any Written Document

LONDON, Nov. 8.—Great Britain refuses to purchase peace with the Turks at the cost of humiliation and disgrace, Marquis Curzon, British Secretary for Foreign Affairs, declared today in an address.

The attitude of the Kemalists, reflected in their recent demands that the Allied troops leave Constantinople, will not be tolerated, he added, and he gave flat warning to the Nationalists that they will come to a disaster if they venture to oppose their military to the "strength of Great Britain and the might of Europe."

The gravity of the situation in the Near East was described by Lord Curzon when he termed it "the most definite menace to the peace of the world."

Replying to what he described as jibes made at himself by former Premier Lloyd George and Mr. Winston Churchill, he said:

TELLS MEMBERS TO BE HOPEFUL

LABOR PARTY SAYS MUNICIPAL LOSSES OVER-ESTIMATED

Concentrating on London in Forthcoming Election—Notes Mathematician Chelsea Candidate

LONDON, Nov. 8.—The London Labor party has issued a statement in which it says that the losses in the recent municipal elections, which resulted in heavy losses for Labor, should not be taken too seriously, as the party is concentrating on the anti-Labor press.

Concentrating on London

Labor is concentrating particularly upon the London municipal elections, where they have socialist candidates in 44 of the 59 ridings. The Labor attack extends even to the West End, Chelsea, Kensington, Hammersmith and Westminster included.

Mathematician Candidate

Mr. Bertram Russell, the noted mathematician, is the Labor candidate in Chelsea, in opposition to Sir Samuel Hoare. Before the war Russell was an advanced Liberal, but foreign travel has persuaded him that there is a real risk of collapse of European civilization, so now he advocates an advanced policy of international brotherhood.

Mr. Ben Tillett, the noted leader of the dockers, describes the new Premier as a "very worthy and capable politician who has vulgarized his better manhood to the exigencies of party rivalry."

From Coal Pit

The Laborites are hotly resenting the assertion proceeding from opposition camps that not one of them ever did a day's work. Mr. Tom Smith, the Labor candidate in Pontefract, declares he will leave the coal pit the day before the election, and, if defeated, he will return to it the day after.

At a Scrap Price

Manager Gust, of Keen's great iron works at Dowlais, South Wales, offers to transfer the works to the Labor party at a scrap price. The offer was made in Merthyr, a constituency where the Labor candidate is also chairman of the Independent Labor party.

DISPUTE OWNERSHIP OF HARDWOOD PILING

Junk Company Purchases Wrought Iron of Old Structure—Water Falls to Damage Piling

One thousand feet of Australian hardwood piling removed from the old Esquimalt & Nanaimo Railway bridge in the course of its wrecking, and valued at approximately \$2,000, is the cause of a dispute between the city and the railway company as to its ownership. The long piles are now stacked on a scow in the Inner Harbor, and although they have been submerged for more than twenty years, City Engineer P. M. Preston states that they are in perfect condition. The Esquimalt & Nanaimo Railway Company claims that only the span and not the approaches of the bridge was given over to the city, according to a statement made yesterday by Mayor Marchant.

The last of the wrought iron that comprised the framework of the old bridge has been removed and a start will be made early next week on the construction of the concrete pier and abutment. Mr. Preston announced yesterday.

As soon as this work is completed the Canadian Bridge Company, which purchased the bridge, will commence the steel parts of the railway section of the new Johnson Street bridge, which will run parallel to the completed highway portion.

The iron parts of the old bridge have been resold by the Canadian Bridge Company, which purchased them from the city for \$7,500, to the Dominion Junk Company, of Victoria.

TURKS MAY FORCE MARTIAL LAW ORDER

CONSTANTINOPLE, Nov. 8.—The Eastern Telegraph Company's cable has been cut on the Kemal side of the Chanak zone in Asia Minor. The Turks refuse to permit the company to repair the line.

Continued insistence by the Nationalist authorities on the abolition of inter-Allied control of the police, customs, railways, and the censorship over Turkish newspapers has caused a recurrence of the crisis. It is believed here that it will be necessary for the Allies to proclaim martial law.

FEDERAL MINISTER IS ON WAY TO RECOVERY

OTTAWA, Ont., Nov. 8.—For the first time in many weeks Hon. W. C. Kennedy, Minister of Railways and Canals, was able to telephone his secretary in Ottawa today. Mr. Kennedy is still in the Royal Victoria Hospital, Montreal, where he is making good progress toward recovery after two serious operations.

HIGH PERCENTAGE OF TAXES RECEIVED

OVER 81 PER CENT OF LEVY IS PAID THIS YEAR

Compared with 76.47 Per Cent Last Year, Indicates Restoration of Confidence

Indicating a strengthening of the taxpayers' faith in the future of Victoria, City Treasurer Edwin G. Smith announced yesterday that the percentage of municipal taxes collected here this year is 81.32.

This shows an increase of 5.37 per cent over last year, and is the largest percentage collected since the boom years of eight years ago. Of a total tax levy of \$1,588,572, \$1,300,000.21 has been collected. Last year the tax levy was less—\$1,415,000 to be exact—and the collection was only 76.47 per cent, and the latter was an increased percentage over that of 1920. In the year 1918 the collection was still less—59.11 per cent; in 1917, 61.44 per cent. The city has never collected 100 per cent of its taxes in any one year, although it hovered close to 90 per cent during the 1911-13 period of expansion.

PREDICTS GOLD RUSH TO NEWFOUNDLAND

Stampede Outwitting That of the Klondike Will Be Seen in Spring, Is Prospector's Opinion

SYDNEY, N.S., Nov. 8.—Newfoundland next spring will see a big gold rush that will outlive the famous Klondike stampede of '98, in the opinion of W. T. Yule, a prospector, who has just come here after staking extensive claims at St. John's, where rich stakes have been reported.

During the last three weeks, news of the strike has created a gold fever in Newfoundland and more than 700 claims have been filed at St. John's. The claims are large, comprising 520 acres each. Prospectors from far distant Alaska and South Africa are planning to join the rush.

CALIFORNIA STILL IN REPUBLICAN COLUMN

Mr. F. W. Richardson Is Governor; Mr. Hiram Johnson Senator—Democrat Victories

SAN FRANCISCO, Nov. 8.—Results of the general election in many of the far Western states were in doubt tonight, owing to a heavy vote of abstention and lengthy ballots. In several of the states the returns were so meagre and the candidates were running so closely that it was expected that an official count will be necessary to decide the winner.

Newspaperman Governor

California remained in the Republican column, with the election of Friend W. Richardson as Governor and Hiram W. Johnson as United States Senator.

Arizona went Democratic, returning Senator Henry Ashurst and Congressman Carl Hayden and electing W. P. Hunt as Governor, and an entire state ticket.

Colorado returns were meagre, but they indicated that William Sweet, Democrat, was in the lead for Governor.

Slightly more than half of the precincts in Idaho reported C. C. Moore, Republican, leading in the race for Governor.

Burton K. Wheeler, the Democratic candidate for United States Senator in Montana, had a comfortable lead.

Nevada was another Western state that went Democratic, almost entirely.

Oregon Landslide

Oregon was the scene of a Democratic landslide, Walter H. Pierce, Democrat, defeating Governor Ben W. Oliver, Republican, by 16,062 in 1,303 of the 1,129 precincts in the state. Returns indicated the Oregon voters adopted the compulsory school act, which its sponsors proclaimed would not permit any private schools, including parochial schools, in the state. The act provides that children between eight and sixteen years are to be sent to a public school during the entire school year.

GERMANY NEEDS TWO FREE YEARS

Experts Investigating Economic Conditions Advocate Moratorium—International Loan Is Sought

COMMISSION TO REVIEW PROPOSALS IN PARIS

Stabilization of Mark at 3,000 to 3,500 to Dollar by Utilizing Reichsbank's Reserve Suggested

BERLIN, Nov. 8.—The report of the experts who have been investigating economic conditions in Germany, Professors Keynes, Brand, Jenks and Cassels, advocates a two years' moratorium from reparations payments of cash or in kind and stabilization of the mark on the basis of 3,000 to 3,500 marks to the dollar by utilizing the Reichsbank's gold reserves.

The report contends that the financial problem cannot be solved unless the mark is stabilized, and that stabilization would be impossible without a moratorium.

Reparations Bank Notes

The experts suggest that half the Reichsbank's gold would suffice and should be devoted to repurchase German bank notes, especially those in foreign possession.

EQUALITY ON COSTS OF TROOPS ON RHINE

Ambassadors Outline Proposals and Impracticability of Meeting American Contentions

WASHINGTON, Nov. 8.—Recognition of the equality of American claims against Germany with those presented by France, Great Britain and Belgium, in connection with the maintenance of troops on the Rhine is understood to have been suggested in Allied proposals communicated to Secretary Hughes today by Ambassador Jusserand of France, Ambassador Gades of Great Britain, Charge d'Affaires of the Italian Embassy, and Baron de Cartier, the Belgian Ambassador.

Offer Counter-Plan

The diplomats are understood to have pointed out the views of their Governments as to the impracticability of revising the whole system of reparations allotments at this time to meet American contentions, and to have outlined a counterplan for American reimbursement which their Governments believed might be accepted in Washington.

The balance owing from Germany to the United States on April 1 last, was \$284,097,297, while the American outlay is at present continuing at the rate of about \$2,000,000 a year.

LABOR MAN PLEASED

CONTENTIONS VINDICATED, SAYS MR. GOMPERS

Stewart Defenders of Privilege, Greed and Oppression Sent Down to Defeat, He Claims

WASHINGTON, Nov. 8.—The results of the election are a "magnificent vindication of every contention made by the American Federation of Labor," Mr. Samuel Gompers, president of the Federation, declared in a statement tonight.

"One after another, the stalwart old defenders of privilege, greed, oppression and reaction went down to defeat," he added. "Compulsory labor injunction, the over-riding of law and constitution, the railway labor board, the sales tax, the ship right, these were things typifying the general concept that was repudiated and condemned so forcefully and overwhelmingly."

TWENTY REPUBLICANS WIN ILLINOIS SEATS

Net Loss of Four Congressional Seats—Beer and Wine and Soldier Bonus Carry

CHICAGO, Nov. 8.—Illinois will send seven Democrats and twenty Republicans to the next congress as a result of yesterday's election, a net loss of four seats for the Republicans. The Republican state ticket went over by big majorities.

Beer and wine and the soldiers' bonus both carried by large majorities, but failed to keep up in the country districts the pace they had set in the cities.

FIND NEGLIGENCE CAUSE OF DISASTER AT THE REILLY MINE

SPANOLER, Pa., Nov. 8.—Negligence was responsible for the gas explosion in the Reilly coal mine Monday morning, according to a statement given out tonight by Chief Mine Inspector Seward Burton, of Harrisburg.

"We expect to determine tomorrow just who was guilty of negligence," said the inspector.

Appointed Italian Ambassador

ROME, Nov. 8.—Prince Caciotti, a member of the Chamber of Deputies, has been appointed Italian Ambassador in Washington.

STUART DOLLAR IN TROUBLE IN PACIFIC

WITH her rudder broken, the British steamer Stuart Dollar is drifting in the Pacific Ocean, 1,550 miles off Cape Flattery, according to a radio message received here last night. The tug Sea Monarch is en route to the aid of the disabled vessel, which was en route from Victoria to Manila.

News of the mishap to the ship was picked up from San Francisco last night by the Canadian station at Estevan and relayed to Gonzales Hill here. The vessel was too far distant to be spoken from the local stations, but the San Francisco messages, replying to the Stuart Dollar, could be heard distinctly. The ship passed out to sea, dropping anchor at Estevan, October 25, after loading on Puget Sound and at Vancouver. She is under the American flag, of 10,300 deadweight tons, and was built during the latter part of the war at Shanghai for the United States Shipping Company, being sold to the Stuart Dollar Company a year ago.

NIGHT SESSION IS PROLONGED

In Effort to Block Tactics of the Opposition, Government Majority Operates Until an Early Hour This Morning

The division on Mr. Catherwood's amendment to the motion in Reply came at 2:15 a.m., the opposition amendment being defeated by 25. The House then adjourned.

In the Government's determination to force the debate on the reply to the Speech from the Throne to be completed today, the Government last night forced what was described by opposition speakers as one of the most important debates of the session to last into the early hours of this morning.

Mr. W. J. Bowser, K.C., leader of the opposition, stated that the Government was deliberately trying to stifle opposition, which the Premier to take the point of order that members were not allowed to impute motives.

J. A. Catherwood, member for Dawood, introduced a new amendment to the motion in reply to the Speech from the Throne regretting the incompetent and ineffectual part of the Land Settlement Board in respect to the Merville settlement. His remark indicated that the amendment referred to the Merville settlement, where he charged that unfair conditions were being imposed upon the settlers, who had risked their lives in the war.

The chief speakers for the amendment were the leader of the opposition and Messrs. J. W. Jones and Fred Lister, who, with W. A. McKenna and the Hon. S. F. Toynbee, M.P., had just returned from a visit to Merville.

As soon as the amendment was introduced the Government sent out its whips and rounded up the members in the determination to force a division before the House should rise. (Continued on Page 19)

TO CO-OPERATE ON IMMIGRATION PLANS

Hon. Charles Stewart Tells Transportation Representatives Government Will Lend Aid

OTTAWA, Nov. 8.—The conference on immigration called by Hon. Charles Stewart, Minister of Immigration and Colonization, was continued today, and was adjourned just before its conclusion. The Minister said that he was naturally greatly interested in an effort being made to get settlers, and he was sure that the conference would produce good results.

Government to Aid

He said that it was the policy of the Government to lend aid when it was needed. He expressed the hope that such conferences would be held frequently in the future, for it was frequently the case that co-operation between the Government and the public would be obtained. Today, British and Continental immigration received attention. Owing to the presence of Mr. J. Obed Smith, Superintendent of Immigration for the Dominion Government in London, and Sir George M. Brown, the Canadian Pacific Railway, the members had the benefit of first hand information on the situation, both in the British Isles and on the Continent.

To Extend Invitations

They gave an outline of the measures they consider necessary for the doing of effective immigration work overseas. It developed through the discussion that the Government was under consideration the extending of invitations to those countries where desirable settlers may be secured, and who are eligible for citizenship.

A feature of the conference was the spirit of hearty co-operation manifested. The co-ordinating of effort on the part of the transportation and colonization interests with the Government was said to produce especially good results in the publicity and advertising work, eliminating much duplication.

It is understood that as a result of the conference, the Government will invite the transportation interests to appoint a committee to co-ordinate all the publicity efforts of the parties involved.

ANGORA REPEATS FORMER DEMAND

British Troops Post Machine Guns Ready to Prevent the Turks Entering European Quarter at Constantinople

NEAR EAST CRISIS IS BECOMING MORE ACUTE

Sultan Takes Refuge Aboard British Ship—Kemalist Movement Against Foreigners May Be Serious

LONDON, Nov. 8.—The situation in Constantinople has become more acute because of the virtual suspension of communication between the Turkish capital and London. Very little news has filtered through since Tuesday night, and the telegraph lines are interrupted, owing to it is reported, to a break down somewhere in the Thracian region.

Demand Evacuation

The latest word from Constantinople was that the Angora Government had reiterated its demand to the Allies to evacuate the city. This, if true, renders worthless the undertaking which Rafet Pasha, the new governor, is said to have given the Allied generals on Tuesday that he would cancel measures which the Allies regarded as undesirable.

Allies in Harmony

So far as is known, the Allies are still acting in complete harmony. Continued on Page 8

SUDDEN ATTACK MADE ON AMOY

HEADQUARTERS OF GOVERNMENT OFFICER SEIZED

All Native Schools Seized and City in Panic—Gunboats Protect Foreign Interests

AMOY, China, Nov. 8.—A sudden attack last night by the military forces headed by Chang Tso Peng against Li Hui Chi, who has the support of the Peking Government, threw the city into a panic. Li took refuge in flight after Chang had seized his headquarters.

Business Paralyzed

All the native schools are closed, business is paralyzed, and the foreign settlement is congested with Chinese refugees from the native quarters, and British and American gunboats, lying close in shore, are protecting foreign interests.

CRISIS EFFECTS POLITICAL WAR

LOYD GEORGE'S SEE ATTEMPT TO BLUFF NEW PREMIER

Mr. Bonar Law Certain of Support From French, Anxious to Avoid Lloyd George Support

(Copyrighted in U.S. by New York Herald)

LONDON, Nov. 8.—The terrible Turk threatens to play an important part in the coming elections. The Bonar Law Government is faced to face with the issue of war mongering, and all England is alert tonight for the first barking of the machine guns that Lieut-General Sir Charles Harrington is reported to have placed along the Galata Bridge across the Bosphorus.

Discusses Issue Tonight

Premier Bonar Law is expected to take full notice of the Guildhall banquet tomorrow night. While the Conservative organs are charging Lloyd George with responsibility for the situation as it stands today, the former Premier's own followers are taking a sinister pleasure in declaring (Continued on Page 19)

LORD BEAVERBROOK NOT PREMIER'S GUIDE

Never Failed to Be Amused and Interested, But Never Moved by His Advice, Says Mr. Bonar Law

LONDON, Nov. 8.—Lord Rothermere's Daily Mirror today is a "special Bonar Law issue." Recently, therefore, Lord Rothermere's papers are coming down finally to the aid of the Premier. This seems especially the case, as the Daily Mirror today speaks about Mr. Bonar Law being "quietly liked," although confessing that there is little marked difference between the policies of Mr. Bonar Law and Mr. Lloyd George.

The Daily Mirror has an article by Lord Beaverbrook on Bonar Law. He declares that when he first heard Beaverbrook, of whom he constantly speaks in high terms, on a public platform in Manchester, "a feeling akin to hero worship sprang up in my heart."

Not Political Adviser

Lord Beaverbrook refutes the common opinion that he has been Bonar Law's much recently.

"This may surprise the political public, who are always told that I am an influential adviser of him," said Beaverbrook, of whom he constantly speaks in high terms. "This is far from being the case. Of course, I have in the past often had my say plainly on the political situation. Bonar Law's method of receiving such statements may be summed up by the remark of his own, 'I have never failed to be interested and amused by what Lord Beaverbrook had to say, nor have I ever been moved by his advice.'"

REPUBLICAN LOSES WASHINGTON FIGHT

SEATTLE, Nov. 9.—The election of Mr. C. C. Dill, Democrat, to the United States Senate over Senator Miles Poindexter, Republican incumbent, was indicated early today when it was unofficially stated at the office of the auditor of King County that a re-check of unofficial returns from the county would probably show a gain of "about 1,200 votes for Poindexter." This gain, it was admitted, would not overcome the lead obtained by Mr. Dill on the basis of late returns from all but a few scattering precincts of the state.

DOMINIONS NOT ASKED TO SEND DELEGATES

OTTAWA, Ont., Nov. 8.—No invitation to send representatives to the Near East conference to be held at Lausanne has been forwarded to any of the self-governing British Dominions. Premier King stated today.

MINISTER DEALS WITH SITUATION

Outlying Districts Should Have Opportunity to Present Views, Says Minister of Education

Apparently the reported suggestion that the debate on the address in reply to the Speech from the Throne was to be early curtailed—something which has not as yet transpired in the House—moved the Minister of Education, Hon. J. D. MacLean, last evening in the Legislature, to suggest that it was a mistake to limit the debate. He favored speeches few and brief, but he held it to be an erroneous idea that members coming from outlying constituencies and who desired to tell of the needs of their ridings should be cut off short; in fact, the minister sought to dissipate the idea that there had been any suggestion of curtailing the debate.

Hon. Dr. MacLean dealt with several criticisms that had been leveled against the educational department of the Government. It had been argued, he said, that the Government should take over the entire administration of the education of the Province. Such a step would mean, first, the greater centralization of the educational policy of the Province, for it was to be assumed that if the Government was providing all the funds it would necessarily insist upon controlling the expenditure of such funds. But such a policy of centralization was opposed to the spirit of the age, he claimed. It was undemocratic and alien to the principles of the Anglo-Saxon race.

Minister's Views

If it were wise for the Government to take full control of the educational policy, "why should we not take charge of all the municipal activities?" asked Hon. Dr. MacLean, who stated: "I can imagine an unscrupulous Government in office under such a plan. The province is so dangerous it should not be considered for one moment." The suggestion had been made, declared the minister, that the School Department should be abolished and all school affairs left to the municipal councils.

The minister pointed out that in 1917, the taxes levied by the present Government were sufficient to meet current expenditures. They were increased to make revenue meet outlay and surplus, he said, that same policy should have applied to the municipalities. He held that the per capita expenditure in Vancouver and Victoria were anywhere from 25 to 50 per cent lower than in other Canadian centres, though the cost of education was made that in British Columbia the cost of education was very much (Continued on Page 19)

REPUBLICANS TO HEAD CONGRESS

Have Necessary 218 Members to Control United States House of Representatives—Democrats Get 204 Seats

DRIER OPPONENT OUSTS CONGRESSMAN VOLSTEAD

Democrats Gain, But Fail to Secure Enough New Seats—Prohibition Defeated in Many Districts

NEW YORK, Nov. 9.—Republican control of the House of Representatives of the 68th congress was determined finally by announcement of the election of R. Scott Leavitt, second Montana district, at 2:44 a.m. today, giving the Republicans the necessary 218 for a majority. At this hour the Democrats had 204, the Socialists 1, Farmer-Labor 1, and Independent 1, with nine districts still unreported.

Latest returns yesterday indicated that the Democrats have won control of the state senate, also, confirming earlier returns. Several upsets at one time led to the belief that the Republicans had retained control.

Author of Prohibition

ST. PAUL, Minn., Nov. 8.—Defeat of Congressman Andrew J. Volstead, author of the prohibition enforcement act, was indicated in returns available today. (Continued on Page 19)

GOVERNMENT CHANGE INSPIRED KEMALISTS

Took Advantage of Election Preoccupation—Mudania Conference May Have Meant Little

LONDON, Nov. 8.—The Manchester Guardian, which is no great admirer of Mr. Lloyd George these days, admits the possibility suggested by the former Premier in his speech at Newcastle yesterday, that new storm clouds had arisen in the Near East because of Great Britain's change of government and election preoccupation.

No Sincere Intentions

"The Guardian" declares that undoubtedly some of Mr. Lloyd George's opponents did their best to convince the Turks that not a finger would be raised to check them going anywhere they liked. The Guardian, however, admits the equal possibility that the Turk never had any firm intention of observing the Mudania agreement.

Grotesque Appeal

The Asquithian-Daily News derides the spectacle of Mr. Lloyd George urging the new Government to wake up and deal firmly with the Turk. It wants to know if ever there was a greater piece of bluff than the Lloyd George Government's grotesque appeal to the Little Entente and the Dominions.

Mutual Loyalty

"The urgent need for the moment," says The Daily News, "is that the British, French and Italian Governments should agree upon a common policy and proclaim it promptly, and act upon it in a spirit of mutual loyalty, which happens to be the policy of Bonar Law."

ORDER COURT-MARTIAL FOR GREEK OFFICIALS

Cabinet Ministers and Generals Are Charged With Responsibility of Greek Disaster

LONDON, Nov. 8.—The revolutionary committee in Greece has published a decree ordering the trial by extraordinary court-martial of the former Cabinet Ministers and generals now under arrest charged with responsibility for the Greek disaster in Asia Minor, says a Reuters dispatch from Athens. The decree exempts former King Constantine from trial.

Not Personally Blamed

It declares that Constantine, according to the constitution, was not personally responsible for the disaster, but the accused have to bear his responsibility. The decree was the outcome of an investigation by the revolutionary committee to investigate the situation.

Had Earned Promotion

LONDON, Nov. 8.—Sir Arthur Griffith Boscawen, Minister of Health, has received a message from Premier Bonar Law refuting the suggestion made at Taunton, Somerset, where the Minister is fighting for reelection, that he was removed from the Ministry of Agriculture because he had been a failure. The Premier wired: "I asked you to be Minister of Health because you had earned promotion."

IS FIRST MOTHER TO WIN ELECTION TO U.S. CONGRESS

CHICAGO, Ill., Nov. 8.—The first mother has been elected to Congress, returns from the election showed today. She is Mrs. Winifred Mason Hunk, elected to fill the unexpired term of her late father, Mr. William Mason, Congressman at large from Illinois. She led a band of nine women from Middle West States seeking places in Congress and she alone was successful.

DRY OPPONENTS IN U.S. ELECTED

MODIFICATION OF VOLSTEAD ACT IS FAVORED

California and Illinois Vote Heavily for Change—Light Wine and Beer Democrats Sweep New York

CHICAGO, Nov. 7.—Proponents of relaxing of the present prohibition law scored heavily in at least four States yesterday, according to communications today from the nation-wide election. In Illinois an expression of sentiment on the Volstead Act favored modification by approximately 600,000 votes to a negative 200,000, with one-half the State reported.

By Two to One

California defeated the State Enforcement Act by an indicated two to one. Missouri re-elected United States Senator James A. Reed, an avowed exponent of prohibition, and New Jersey, it is indicated, sent Governor Edward L. Edwards, also avowedly against prohibition, to the United States Senate over Senator Frelinghuysen.

In Illinois the congressional delegation will take in three "wet" republicans. The Wisconsin delegation will be "wet" seven to four, the majority from the State including Victor L. Berger, Socialist, elected for the third time.

Elect Senator La Follette
Wisconsin also re-elected Senator Robert W. La Follette, classed as an anti-prohibitionist by the dyes. In New York State, where the Democrats swept the State, a Democratic platform contained a plank favoring light wine and beer.

Dryer Than Volstead
In the seventh Minnesota congressional district, returns indicated Representative Andrew J. Volstead, father of the prohibition act, to be making a strong fight to overcome the early lead of Rev. O. J. Kvale. Kvale drew little hope from that, however, as Rev. Mr. Kvale has described himself "as dryer than Volstead."

Honors Even

In various congressional districts in which the wet and dry question was made an outright campaign issue, the two sides fared alike, some of the dyes being beaten decisively and a few of the wets winning.

J. K. Smith, who campaigned in the sixth Nebraska district on a wet

platform, polled only a negligible vote, according to incomplete returns.

The wet opponent of W. M. Sears in the second district of Nebraska, was defeated easily.

In Indiana, J. P. Turk, an avowedly wet, was defeated by Merrill Moore, who stood for re-election.

On Wet Platform

Fred Hagerman, Democrat, who made the race in the third Iowa district on a wet platform, was elected as were Robert Clancy, Democrat, in the first Michigan, and Clarence McLeod, Republican, in the thirteenth Michigan. Clancy was a Democratic addition from Michigan, and the only member of that party reported from the first six districts to report.

A. C. Shallenberger, Democrat, fifth Nebraska, also a proponent of modification of the Volstead Act, had a lead over his Republican opponent. In the twelfth district of Missouri, Congressman L. C. Dyer, a protagonist of the wet platform, was re-elected over his dry opponent.

CLEARANCE EXCHANGE TO AVERT GRAIN JAM

Vancouver Shippers May Organize as Outcome of Conference With Visiting Commissioners

VANCOUVER, Nov. 8.—Formation of a Vancouver grain shippers' clearance exchange to function after the manner of a grain "pool" is a possible development of conferences here between members of the Canada Board of Grain Commissioners and Vancouver grain interests, it is announced.

Messrs. Boyd, Snow and Robinson, grain commissioners, will remain in the city today for further conferences in an effort to arrive at a solution of the difficulties confronting local shippers, which threaten to cause a serious congestion of grain here, through lack of adequate elevator facilities.

FASCISTI CLASH WITH BAVARIAN SOCIALISTS

Defeated Party Recruit From Workers Under Military Leaders to Defend Newspaper Offices

LONDON, Nov. 8.—The Amsterdam correspondent of the Exchange Telegraph Company says that alarming news is being received from Berlin concerning the rapid growth of Fascist action in Bavaria. At Munich, the report said, fierce fighting took place between the Fascists and Socialists and the Socialists got the worst of it.

Well Armed

Seven companies of well-armed Fascists, wearing steel helmets and marching to tunes from fifteen bands have departed from there.

Some of the executives of the Socialist party decided to recruit detachments from the workers under the command of military officers in order to defend the offices of the Socialist newspaper Munchener Post and the headquarters of the trade unions.

SUN BATHS AS CURE FOR TUBERCULOSIS

PARIS, Nov. 8.—More extensive use of heliography or sun baths in the treatment of tuberculosis has been urged upon the Academy of Medicine by Dr. A. Deltile. He reported that a number of tubercular cases, and also sufferers of perituberculosis, had been cured by sun baths in various sanatoriums in Southern France.

The sun cure was further praised by Dr. Maurice Benoit, who declared it was beneficial for cancer. Statistics were presented by the doctors to show that cancer is unknown in the tropics and prevalent in colder countries in proportion to their lack of clear sunshine.

NO ELECTION SPECIALS

As Result of Newspaper Agreement, No Volstead Flooded New York Streets

NEW YORK, Nov. 8.—With interest in the election greater than it has been for years, New York has lighted no extra editions of evening newspapers after 7 o'clock, as the result of an agreement entered into by newspapers when notified that the pressmen of The New York Evening World had elected not to work after that hour.

COSTS \$120 TO MAIL LETTER FROM AUSTRIA

OTTAWA, Nov. 8.—The depreciation in value of Austrian currency is strikingly illustrated by the fact that the rate of postage on letters from Austria to Canada is now 600 crowns for the first ounce and 100 crowns for each additional ounce. The rate charged for mailing a letter, figuring the crown at par, is \$120.

ANOTHER ACCIDENT IN PENNSYLVANIA MINE

HARRISBURG, Pa., Nov. 7.—The State Department of Mines was today informed of a mine accident at the Oilphant mine of the Hudson Coal Company, in which five men were killed and two injured. The accident is said to have been due to a "blow-out shot."

REPUBLICANS ATTACK BARRACKS; KILL THREE

DUBLIN, Nov. 8.—An attack with machine guns and rifles from nearby houses was made by Irish republicans here against the Wellington military barracks this morning. Three National army soldiers were killed and 20 others were wounded in the fighting, which lasted two hours. The casualties suffered by the republicans were not learned.

Recover Mail

WINNIPEG, Nov. 8.—The greater part of the money and registered mail stolen from the postoffice at Portage la Prairie on October 31 has been recovered. It was found under the steps of a Portage house. Harry C. Pawlett is in custody in connection with the robbery.

WOMEN FARE BADLY IN U.S. ELECTIONS

Some Congresswomen With Seat Defeated—More Fortunate in Fight for Places in State

NEW YORK, Nov. 8.—Although women played a very prominent part in the United States national elections and the women's vote was a heavy one, women candidates fared rather badly. Only one woman is definitely assured of a seat in Congress as a result of yesterday's voting, with a second listed among the probabilities, while the one "Congresswoman" who has a seat in the present House was defeated.

Mrs. Winifred Huck was elected as representative-at-large for Illinois to fill out her father's unexpired term. She will serve only until next March. The present House will thus have two women members. The incoming House may have one, though this was uncertain today.

There were in all 17 women candidates for the House of Representatives, running in 14 States.

The women were more fortunate in the contests for places in the state assemblies, though even for these minor honors the proportion of women earned was small. In Massachusetts women were elected to the state assembly for the first time in history. The winners were Miss M. Sylvia Donahoe, of Brockton, Republican, and Mrs. Susan W. Fitzgerald, Democrat. Miss Donaldson is a school teacher, 74 years old.

In New York 33 women ran for places on the state ticket or for seats in congress, but none was elected.

In Connecticut the state legislature returns elected six women Republicans to the House.

MORE MENNONITES MAY COME TO CANADA

Three Thousand Migrating From Russia Hesitate Between the Dominion and Mexico

SASKATOON, Nov. 8.—The three thousand Russian Mennonites who are migrating from Russia are undecided whether to come to Canada or go to Mexico, says H. Schroeder, Aberdeen, Sask., agent of the Mennonite Colonization Association of North America, Ltd. They are coming to Western Canada, he declares. The contract was signed with the Canadian Pacific Railway in July, and the emigrants will come as quickly as shipping can be provided and the necessary arrangements made.

It is quite true that Mennonites are migrating to Mexico from Western Canada, says Mr. Schroeder, but those in Russia are convinced, after investigation, that Canada is a better place than Mexico.

MILLION DOLLAR DEAL

Vancouver Interests Purchase Plant of British Columbia Distillery at New Westminster

VANCOUVER, Nov. 8.—Vancouver interests, represented by Macdonald, Marling and Blair, of the B.C. Breweries, have purchased the plant and business of the B.C. Distillery at New Westminster. Mr. Marling said this morning that the consideration involved was "upwards of \$1,000,000." He was not in a position to divulge the names of the members of his syndicate, he added, beyond saying that various developments and extensions of the business are under consideration.

MOTHER SENTENCED TO FIFTEEN YEARS

Ontario Woman Who Threw Newly-Born Babe From Train Goes to Penitentiary

LINDSAY, Ont., Nov. 8.—Beatrice Nichols, of Bobyragan, was this morning sentenced to fifteen years in Kingston penitentiary by Justice Riddell for manslaughter. The jury found her guilty of having thrown her newly-born babe from the window of a train while on her way home.

DEMOCRATIC SOUTH

Really Again as Result of Yesterday's Vote in United States General Election

ATLANTA, Ga., Nov. 8.—The Democratic "Solid South" once again is a reality as a result of ballots cast in yesterday's general election, according to returns early today.

Led by Tennessee, where Governor A. A. Taylor, for many years a Republican leader of his State, apparently has been defeated by Austin Peay, and Cordell Hull, chairman of the Democratic national committee, has regained his seat in Congress, the Democrats drove the Republicans from the foothold the latter gained in 1920. The Democrats increased their congressional representation from four to eight in the State, re-

WANT RELIEF BASED ON COMFORTS OF HOME

Calgary Central Council of Unemployed Propose Resolution for Dominion Conference

CALGARY, Nov. 8.—Extension of civil relief to unemployed, whether married or not, and that the relief be administered on the basis of "the comforts of home," were outstanding points in the programme of the Winnipeg campaign held down by the Calgary Central Council of Unemployed at a meeting held Tuesday night. Nine resolutions relative to the administration and distribution of relief were endorsed for presentation at the Dominion conference of unemployed which will be held in Winnipeg on November 19. Mr. Harry Toole was appointed as the delegate to represent Calgary at the conference.

Bears the Signature of *Dr. H. H. Hinton*

STUDENTS APPEAL TO HOUSE FOR UNIVERSITY

Legislators Adjourn While Youthful Advocates Press for Better Consideration of Institution

Urging the need of the Government making some financial provision whereunder steps may be taken to immediately proceed with the erection of permanent buildings to house the growing student roll of the University of British Columbia, members of the student body received a unique reception by members of the Legislature Tuesday afternoon when, in order that they might be heard to press their case, the House adjourned at 5:15 o'clock and the entire membership adjourned to the members' room where the spokesmen for the students were heard in advocacy of more forward policy on the part of the present Liberal administration.

Undoubtedly the occasion was a unique one in the history of this Province, in that for the first time in many years—perhaps the first time in the history of the Province—the House adjourned for the prime purpose of hearing a delegation on any subject. Last week the student advocates waited upon the cabinet; but Tuesday they were accorded the ear of the membership of the entire Legislature irrespective of party.

Big Petitions

Prior to the adjournment of the House to give the delegation of young men their opportunity to press their claims for greater consideration of the educational institution founded by the late Conservative administration, and which, since the advent of the present Government, has been continually pressing for financial consideration to permit the rapidly-growing University to expand its facilities, the student body, under the leadership of Captain Ian Mackenzie, Liberal member for Vancouver, presented a petition to the House, one purporting to be signed by 5,000 electors of the Province, urging that the Government should immediately make provision for the erection of permanent quarters for housing the University. It took three page boys, their arms filled with copies of the petition, to convey this public expression of sentiment to Mr. Speaker, who was almost embarrassed when the deluge of petitions descended upon him.

Assembled in the members' room, the legislators heard the plea of the student body of the University as presented in impressive and eloquent manner by Mr. A. E. Richards, president of the student body of the University. Mr. Percy Barr, vice-chairman of the publicity committee formed to secure the petition, also spoke; Mr. J. A. Grant, campaign manager of the movement; Mr. James L. Lawrence, representative of the alumni societies of Victoria and Vancouver; and Mr. John Cline, in support of the arguments advanced by the students' representatives there was submitted a large number of photographs illustrative of the present disadvantageous conditions under which the University is now carrying on.

Premier Oliver presided at the gathering and explained the student representatives' desire to put their claim before the members of the House.

Eloquent Students

The importance of mutual explanations in reaching a solution, in important and pressing problems was emphasized by Mr. Percy Barr, who stated that the students of the University, in their campaign for better provision for the University, had consistently kept free from the political element. Education, he held, was above politics, and the students had been actuated solely by what they considered to be the best interests of the people, not alone of the present but of future generations. It was the hope of the students, he stated, that when the question came before the House it would receive the full attention it deserved.

Mr. Barr called attention to the University Loan Act passed in 1920 authorizing the Government to borrow three millions with which to erect permanent University buildings. It was estimated that it would cost \$140,000 to provide immediate accommodation of 1,400 students, and would be expended on permanent structures which, though not elaborate, would meet immediate needs; \$150,000 on buildings which need not be permanent; \$20,000 for roads, etc., to open up the 3,000-acre tract with which the Government had endowed the University in Point Grey; \$50,000 for transportation needs; \$30,000 for drainage, etc.

The Point Grey lands were not at present of great value, pointed out Mr. Barr, but it was estimated that the revenue from the sale of those lands, when developed, would take care of the loan as well as supply part of the current expenses of the institution. It would be folly, he considered, to sell the lands under existing conditions, but it was a certainty, proved by the experience of similar institutions elsewhere, that with the University houses in permanent quarters, the land values would be greatly increased.

A Complete Whole

Mr. Barr deprecated the suggestion that first attention must be paid to the public schools. The public schools, the secondary schools, high schools, and the University were inseparably connected, and none could be neglected without injury to all. The University, he claimed, would prove to be the greatest single factor in raising the standard of the teaching profession. He deprecated the suggestion which had often been made that a university training produced too many experts, too many drones; he held that the majority of the university men could hold their own with the real world. "We are not turning out white-collar men," he asserted.

Mr. J. A. Grant, of the Faculty of Arts of the University, outlined the history of the University of the past few years, emphasizing the increase in the student body. The present quarters, in attic and basement, would soon have to be vacated to permit of the Vancouver General Hospital adding needed additions, and it was a certainty that this country during Christmas it would be impossible to seat all the students. To limit the institution as a provincial one and to detract from its real democratic nature. Under existing conditions the faculty, composed of men of the

highest merit, would be lost, Mr. Grant urged.

Public Sentiment

Mr. A. E. Richards referred to the petitions so largely signed as evidence of public interest in the future of the University. All classes of people and all the leading organizations of the Province had expressed their hearty support of the campaign carried on by the students. He believed that the Government, in face of the facts, could go forward and adopt a sensible policy. He pointed to the fact that only that morning word had been received that students of the University of British Columbia had secured first place in the stock judging competition at Portland in competition with other universities, and that Harold Stevens, a University student, was second highest man in that work at the whole show. He urged that when the question came to be discussed on the floor of the House it be considered free from party influence and with the best interests of the University and Province in mind.

Premier Oliver thanked the delegation of students. He made no announcement as to what the policy of the Government would be. He expressed regret that Hon. Dr. MacLean, Minister of Education, was unable to be present, a previous important appointment necessitating his presence elsewhere.

HIGH PERCENTAGE OF TAXES RECEIVED

Continued from Page 1

The figures were a surprise even to Mr. Smith, who could hardly believe them at first. He checked up his calculations, however, and found them to be correct.

Reasons for Improvement

"Cleaning out a lot of land by the tax sale route has helped considerably," said Mr. Smith. "For several years we have had property on our books, being taxed but never paying a cent. The tax sales have eliminated them. Extension of relief from the fifteen-year consolidated arrears plan has been a big influence, too. Taxpayers who would have spent their money on the ten-year plan had it not been converted into the fifteen-year extension, paid their current taxes as well, and all that has helped to swell the total. The fact that we are taxing improvements has not in itself made much difference in collections, but the way in which the Council has tackled the basic problems of finance this year has strengthened the confidence of the majority of property owners."

The sum accounted for in the city's ledger on October 31, the last day for receiving payment of current taxes, was \$1,474,742. This amount was made up of the following revenues: General taxes, including land and improvements, \$430,549; water frontage, \$7,125.52; boulevard maintenance, \$13,514.11; cluster lighting, \$1,227.18; sewer taxes, \$25,822.23.

Additional Revenue

The amount put through the ledger since November 1 is \$362,826.82, and this has not yet been segregated into categories. Cheques that have yet to be paid through total \$158,747. Prepared taxes to be received in various categories total \$23,080. Under the fifteen-year plan for the first half of the 1922 taxes, \$48,950, and it is estimated that another \$40,000 will be deposited for the other half. This is regarded as a conservative estimate, as the majority of people who have proceeded so far with the relief plan as to be eligible for the fifteen-year extension are determined to hold their property.

The tax rate this year was 32.66 mills, as compared with 29 mills in 1921. The 1922 assessment was \$58,739,252 for land and \$26,990,439 for improvements—a total of \$85,729,691. In 1921 the assessment totalled \$71,298,426, of which \$48,230,886 was for land. Improvements were not taxed then.

ARGENTINE CROP IS WELL ABOVE AVERAGE

OTTAWA, Nov. 8.—According to a cablegram received today from the International Institute of Agriculture, the preliminary estimate of the production of wheat in Argentina is 216,214,000 bushels, against 180,045,000 last year and 171,013,000 the average of the five years 1916-20. The area sown to wheat in Argentina is 16,081,000 acres, against 15,927,000 last year and a five-year average of 14,145,000. The area sown to wheat in Australia is approximately ten million acres, against 8,517,000 last year and an average of 3,568,000. Crop prospects in Australia are fair.

WHEN KIDNEYS HURT TAKE GLASS OF SALTS

Eat less meat if you feel Back-ache or have Bladder trouble.

Too much meat may form uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. Big meat eaters can flush the kidneys occasionally to relieve them like they relieve the bowels, by means of all the acids, waste and poisons, else they may feel a dull misery in the kidney region, sharp pains in the back or sick headache, distaste, the stomach sour, tongue be coated, and when the weather is bad they have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush out the body's uricous waste get about four ounces of Jad Salts from any pharmacy; take a glassful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless, and makes a delightful effervescent lithia water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders. (Adv.)

FREEDOM OF STRAITS SUBJECT OF ADDRESS

General Sir Percy Lake Speaks to Officers' Mess of First Battalion Canadian Scottish

"This question of free passage for ships between the Black Sea and the Mediterranean has been one of the cardinal issues of European politics for over 100 years, and has been the cause of at least three serious wars and many threats of war," said General Sir Percy Lake, K.C.B., K.C.M.G., in an address to the officers' mess of the First Battalion (Sixteenth) Canadian Scottish on Tuesday evening at the Armories, on the subject of "The Freedom of the Dardanelles." Sir Percy was formerly Chief of the General Staff in India, and held other high posts.

The speaker first described the geographical situation of the Straits. "You will at once see," he said, "that, as these Straits constitute the only sea communication between the Black Sea and the outside world, the power that controls them can at will permit or refuse passage to any vessel desiring access to or egress from that sea."

The Black Sea, explained Sir Percy, afforded the only means of transport by sea for goods between the outside world and southern Russia, the Caucasus and Georgia at all times, and northern Russia in winter when the Baltic ports were closed. Roumania, Bulgaria, the country served by the Danube, and the north coast of Asia Minor.

Trade Importance

"Evidently then," said the speaker, "the volume of trade which is influenced by the possession of the Straits is enormous. Before the war the value of the Russian wheat alone imported to England was over \$9,000,000 a year, and our trade, export and import, with Russia amounted to about one-tenth of the whole British trade outside the Empire. By far the greater portion of this passed through the Straits. Our trade with Roumania and Turkey amounted to over \$3,000,000 in 1920.

From the military point of view, he pointed out, the Straits were of almost equal importance.

During the winter months, when her Baltic ports were closed, Russia could not send a single warship abroad (except possibly from Vladivostok) without the permission of the power which controls the Straits. Turkey can, by holding the Dardanelles, keep her capital immune from any attack except by a Black Sea Power.

Sir Percy then told the history of the Straits, and its influence on European politics in the past. Coming down to modern times, he touched on the influence which Turkey's control of the Straits exerted upon the course of the recent war. It prevented helping Roumania with munitions when essential. It made it impossible to supply Russia with munitions of war when needed, except through the White Sea.

Had the Russian troops been adequately equipped in 1917, it was possible the Russian revolution might not have taken place. The German attack in the Spring of 1918 would hardly have been feasible—certainly not on the same scale.

Gallipoli Campaign

Had Gallipoli been taken, the Egyptian, Palestine and Mesopotamian campaigns of Turkey would have collapsed in short order.

Summing up, Sir Percy declared, "the importance of the traffic passing through the Straits is so great, especially to Great Britain, that we cannot afford to leave the control of them in the hands of any Power that cannot be trusted to exercise it fairly and impartially. The same applies in a lesser degree, perhaps, to Roumania, Bulgaria, and the Danube trading states, but of course with added force to Russia. At the root of the trouble have been Russian ambition and Turkey's weakness and unreliability."

"I think we may fairly conclude that the future freedom of the Straits is still of enormous importance to the world at large and the British Empire in particular."

The speaker of the evening was introduced by Lieutenant-Colonel H. M. Urquhart, commanding officer of the battalion. Colonel Cyrus Peck, V.C., moved a vote of thanks to Sir Percy upon the conclusion of his address.

SAANICH TO HEAR OF WATER BOARD

Deputation to Wait on Council at Royal Oak Tonight to Discuss Principle

At the invitation of Reeve Watson, a deputation from the Greater Victoria committee will meet the Saanich Council this evening to discuss the principle of a Victoria and district water board.

The City and Oak Bay Councils have already given their approval to the principle of a water board for Greater Victoria, although wishing to go into the details of the scheme further before endorsing organizational plans, etc.

The delegation is scheduled to meet the Saanich Council at 8:15 tonight.

ENDORSED PROPOSITION

Ministerial Association Approves Principle as to Unemployment

The Victoria Ministerial Association at a meeting held on Tuesday carefully considered the proposal of Mr. Harry Stephenson for dealing with the problems of unemployment and old age pensions, and resolved to heartily commend the able manner in which Mr. Stephenson has endeavored to grapple with these great problems, and endorsed the principle of unemployment insurance, together with old age pensions, the same to be instituted by the state.

The association recommends Mr. Stephenson's plan for such insurance as forming a basis for discussion and as worthy of serious consideration by the Provincial and Federal Governments.

Copies of the resolutions will be forwarded to Mr. Stephenson with authority to transmit them to the governments concerned, and to any other organized bodies which may be interested, and to the press.

(Continued from Page 1)

that the present cabinet by the Turk is due only to his belief that he can bluff Mr. Lloyd George.

Blaise for New President

Strategically and diplomatically, the problem is easier for Mr. Lloyd George. While Lloyd George had to hold hands for the sake of British prestige, it is expected that if hostilities break out the British forces will be withdrawn across the Rhine and the British will be in a position to maintain in cooperation with the United States in the event of any attack on the British Empire.

Munich Conference

The result of such action would be a definite position for the British conference, and consequently there is a possibility that the British will be in a position to maintain in cooperation with the United States in the event of any attack on the British Empire.

Lloyd George's View

The British will be in a position to maintain in cooperation with the United States in the event of any attack on the British Empire.
